

VKN SILENT

FAN ASSISTED TRENCH HEATERS

VKN SILENT trench heaters

are an ideal solution for rooms where user comfort and reduced noise from the device are most important. They are perfect for bedrooms, offices or conference rooms.

High power with less noise

Our devices are distinguished by their exceptional efficiency and quiet operation, which ensures comfort of use even in the most demanding conditions.

VKN SILENT series heaters are an excellent choice for everyone who values comfort, efficiency and elegant design. Installing VKN SILENT heaters in offices or conference rooms ensures optimal working conditions and creates a comfortable environment conducive to concentration and creativity.

The fans with EC motors used in our heaters are characterized by high energy efficiency. Currently, this is an important factor when choosing this type of device by Investors.

VKN SILENT heaters were created based on the results of research and development work conducted in our laboratories.

In addition, they were tested by independent accredited laboratories.

The noise level was tested by the Laboratory of the Institute of Energy, State Research Institute, Department of Thermal Technology „ITC” in Łódź, and the heating power levels were confirmed by tests in the HEATEST s.r.o. laboratory in the Czech Republic (research laboratory no. L1477 accredited by CAI).

PROTOKOL O ZKOUŠCE Č. 1 TEST REPORT No. 029/2024
 ze dne: 23. 05. 2024

Objednatel / Customer: VERANO GLOBAL Sp. z o.o.,
 Vetterów 7a street, 20-277 Lublin, Poland

Výrobce: VERANO GLOBAL Sp. z o.o.,
 Vetterów 7a street, 20-277 Lublin, Poland

Zakázka číslo / Order No.: 012/24 (service specification 013/2024)

Předmět zkoušky: Zkouška teplotního výkonu podlahového konvektoru samostatného typu VKN2 – podle ČSN EN 16430-2
 Subject of the test: Test of the Thermal output – natural convection trench convectors of type VKN2 in acc. with ČSN EN 16430-2

Zkoušební vzorek (vzorky): VERANO VKN2-0925/140 SILENT 044-2024
 Test sample (samples)

Místo provedení zkoušek: Stálé prostory laboratorů / Laboratory's permanent facilities
 Place of testing

Datum převzetí vzorků: 30. 04. 2024
 Date of the sample takeover

Datum vykonání zkoušek: 09. – 13. 05. 2024
 Date of the test

Zkoušku provedl / Test engineer: Pavel Poichro
 Přezkoumal a schválil: Ing. Tomáš Langáš vedoucí laboratorů / head of testing laboratory

Revizní razítko a schválení: [Stamp]

Výtisk č.: 1

VKN SILENT height 90 mm

EQUIPMENT

STANDARD EQUIPMENT:

- Casing made of galvanised steel sheet in RAL 9005 black,
- highly efficient copper-aluminium heat exchanger with air vent,
- modern fan with silent end efficient 24 V DC motor,
- connection space cover,
- water connection: 3/4" female thread,
- assembly struts,
- fastening anchors,
- trench positioning adjustment system.

ADDITIONAL EQUIPMENT:

- Casing powder coated in RAL colour,
- decorative frame (F or L type) made of natural or anodized aluminium or painted in RAL colour
- 18mm high decorative grille:
 - roll-up: made of wood, natural or anodized aluminium
 - linear: made of natural, anodized aluminium or stainless steel or painted in RAL
- assembly fibreboard protection for installing and transporting
- raised floor kit,
- foil sleeve for heat exchanger or fan
- air filter (requires trench casing height extension by 10 mm),
- BMS controllers

- Standard heating output [W] compliant to EN-16430, room air temperature $\theta_i = 20^\circ\text{C}$.
- Sound power measurement is performed in accordance with the PN-EN ISO 3744 or PN-EN ISO 3741 standard.
- Sound pressure levels are given assuming a room attenuation of 8 dB(A).

HEAT OUTPUT AND SOUND PRESSURE OF VKN2-09/25/LK SILENT

The graphs present how heat output Φ [W] depends on the respective average temperature differences ΔT [K] for control voltages U [V]. The graphs also present the sound pressure levels for the respective heater operating conditions.

CORRECTIVE FACTORS FOR VKN2-09/25/LK SILENT HEATERS

Heat output corrective factors for VKN2-9/25/Lk SILENT heaters for installation temperatures other than 75/65/20°C.
